# Commentary

## Overview

Clicks Group continued to demonstrate the resilience of its business model and the defensiveness of the core product offering as diluted headline earnings per share increased by 14.3% to 1 193.5 cents, supported by margin expansion, strong cash flow generation and industry-leading shareholder return metrics.

The Clicks chain recorded market share gains across all core health and beauty product categories, with the Clicks ClubCard loyalty programme growing to 11.8 million active members.

Clicks increased its store base to 936 with the opening of a net 51 stores and the pharmacy network to 720 following the opening of a net nine new pharmacies. While the number of pharmacy openings was below the targeted range due to the Unicorn licensing matter, this was successfully resolved with the Department of Health late in the financial year. Post the year-end, pharmacy licences are again being issued which is positive for Clicks' expansion programme.

UPD successfully completed its large-scale systems implementation in the first quarter of the financial year. Operational metrics have recovered to pre-systems implementation levels and the business delivered a much improved second half performance, also benefiting from the higher increase in the regulated single exit price (SEP) of medicines in 2024 relative to the prior year.

The group maintained its momentum in shareholder wealth creation. The total dividend was increased by 14.3% to 776 cents per share, based on a 65% dividend payout ratio, with R2.5 billion being returned to shareholders in dividend payments of R1.7 billion and share buybacks of R835 million. The group's market capitalisation increased by 34.9% to R89 billion at year-end. Over the past 10 years the group has delivered a total shareholder return of 20.7% compound annual growth rate.

## Financial performance

Group turnover increased by 9.2% to R45.4 billion. Retail turnover, which includes Clicks, GNC, The Body Shop and Sorbet corporate stores, increased by 11.7%. Comparable store turnover grew by 8.4% with inflation of 6.3% and volume growth of 2.1%.

Distribution turnover grew by 3.3% as UPD delivered a stronger second-half performance following the completion of the systems implementation at its main distribution centre in the first half of the year (H1: increase 1.3%; H2: increase 5.2%).

Total income grew by 12.8% to R13.7 billion. The retail margin expanded by 40 basis points following good growth across all categories, in particular the beauty and personal care category, as well as the impact of fewer pharmacies being opened in the year. The 70 basis point increase in the distribution margin mainly reflects the benefit of the higher SEP increase. The group's total income margin expanded by 100 basis points to 30.2% due to the faster growth of retail relative to distribution.

Retail costs increased by 12.5% due to pressure from higher insurance costs, new stores, depreciation on capital expenditure and higher performance-based incentive payments. Acquisitions concluded in the prior year added 2.0% to retail cost growth. Comparable retail costs grew by 7.4%. Distribution costs increased by 7.4% primarily due to the impact of the systems implementation in the first half of the year while costs were maintained below turnover growth in the second half.

Group trading profit increased by 15.1% to R4.2 billion while the group's trading margin increased by 50 basis points to 9.2%. The retail trading margin expanded by 20 basis points to 10.2% due to the stronger growth in higher margin product categories together with efficient cost management. The group and retail trading margins both exceeded management's medium-term target ranges. UPD increased its trading margin by 40 basis points due to the ongoing recovery in turnover, the higher SEP increase and good cost control.

Headline earnings grew by 11.9% to R2.8 billion. Basic earnings per share increased by 14.2% to 1 190.3 cents and headline earnings per share increased by 14.3% to 1 193.5 cents.

Inventory levels grew by 11.9% and group inventory days increased by three days to 74 days. Retail inventory days were higher due to the earlier import of stock to avoid shipping delays and management's increased focus on in-store availability to drive sales.

Cash generated by operations totalled R6.0 billion. Capital expenditure of R891 million (2023: R930 million) was invested mainly in new stores and pharmacies, store refurbishments, supply chain and information technology.

At financial year-end, the group held cash resources of R2.7 billion, with the final dividend totalling R1.35 billion to be paid to shareholders in January 2025.

## Commentary continued

### Outlook

While consumer spending is expected to remain constrained in the short-term, the medium-term outlook for the consumer environment is increasingly positive. Lower inflation, interest rate relief and declining fuel costs, together with the stronger Rand and the extended suspension of load shedding in the country are positive for consumer sentiment and should ultimately support increased spending.

Management is confident that the group's competitive advantage and market-leading positions in the health and beauty sectors, long-term organic growth opportunities in Clicks and the increasing scale of the business, supported by strong cash generation and a robust balance sheet, should ensure that the group continues to deliver on its medium-term financial targets.

Clicks plans to open 40 – 50 new stores and 40 – 50 pharmacies for the 2025 financial year and remains committed to its medium-term target of 1 200 stores.

UPD is well positioned to regain wholesale market share following the improved performance in the second half and the momentum being carried into the 2025 financial year.

Capital investment of R1 025 million is planned for the 2025 financial year. This includes R578 million for new stores and pharmacies and the refurbishment of 70 – 80 stores. A further R447 million will be invested in supply chain, technology and infrastructure.

### Final dividend

The board of directors has approved a final gross ordinary dividend for the period ended 31 August 2024 of 566.0 cents per share (2023: 494.0 cents per share). The source of the dividend will be from distributable reserves and paid in cash.

### Additional information

Dividends Tax (DT) of 20% amounting to 113.2 cents per ordinary share will be withheld in terms of the Income Tax Act. Ordinary shareholders who are not exempt from DT will therefore receive a dividend of 452.8 cents per share net of DT.

The company has 238 062 465 ordinary shares. Its income tax reference number is 9061/745/71/8.

Shareholders are advised of the following salient dates in respect of the final dividend:

Last day to trade "cum" the dividend	Tuesday, 21 January 2025
Shares trade "ex" the dividend	Wednesday, 22 January 2025
Record date	Friday, 24 January 2025
Payment to shareholders	Monday, 27 January 2025

Share certificates may not be dematerialised or rematerialised between Wednesday, 22 January 2025 and Friday, 24 January 2025, both days inclusive.

# Independent auditor's review report on condensed consolidated financial statements

## To the shareholders of Clicks Group Limited

### Introduction

We have reviewed the accompanying consolidated statement of financial position of Clicks Group Limited ("the group") as at 31 August 2024, the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, notes to the cash flow statement, segmental analysis, accounting policies and notes ("the condensed consolidated financial statements").

Management is responsible for the preparation and fair presentation of these condensed consolidated financial statements in accordance with the framework concepts and the measurement and recognition requirements of IFRS<sup>®</sup> Accounting Standards and the Financial Pronouncements as issued by the Financial Reporting Standards Council and SAICA Financial Reporting Guides as issued by the Accounting Practices Committee (collectively "JSE Listings Requirements"), IAS 34 – Interim Financial Reporting and the South African Companies Act. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review.

### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated financial statements as at 31 August 2024 is not prepared, in all material respects, in accordance with the framework concepts and the measurement and recognition requirements of IFRS<sup>®</sup> Accounting Standards and the Financial Pronouncements as issued by the Financial Reporting Standards Council and SAICA Financial Reporting Guides as issued by the Accounting Practices Committee (collectively "JSE Listings Requirements"), IAS 34 – Interim Financial Reporting and the South African Companies Act.

# Accounting policies and notes

- 1.1 The condensed consolidated financial statements for the year ended 31 August 2024 have been prepared in accordance with the framework concepts and the measurement and recognition requirements of IFRS<sup>®</sup> Accounting Standards and the Financial Pronouncements as issued by the Financial Reporting Standards Council and SAICA Financial Reporting guides as issued by the Accounting Practices Committee (collectively "JSE Listings Requirements"), IAS 34 – Interim Financial Reporting and the South African Companies Act.

KPMG Inc., the group's independent auditor, has reviewed the condensed consolidated financial statements contained on pages 6 to 15 of this report and has expressed an unmodified review conclusion on the condensed consolidated financial statements. Their review report is set out on page 5. These condensed consolidated financial statements have been prepared under the supervision of Mr G Traill (CA), the chief financial officer of the group.

The accounting policies used in the preparation of the condensed consolidated financial statements for the year ended 31 August 2024 are in terms of IFRS Accounting Standards and are consistent with those applied in the Audited Annual Financial Statements for the year ended 31 August 2023.

- 1.2 Related party transactions for the current year are similar to those disclosed in the group's Audited Annual Financial Statements for the year ended 31 August 2023. No significant related party transactions arose during the current year.
- 1.3 During the year, the group repurchased and cancelled 3 098 344 Clicks Group Limited ordinary shares. Refer to the statement of changes in equity.
- 1.4 The carrying value of all financial instruments approximates fair value. All financial instruments are held at amortised cost, with the exception of derivative instruments which are designated as hedging instruments, the investment in Guardrisk Insurance Company Limited (R14.7 million) and investments held by the New Clicks Foundation Trust (R166.1 million), which are accounted for at fair value through profit or loss. The fair value of financial instruments that are not traded in active markets is determined by using valuation techniques; if all significant inputs required to fair value an instrument are observable, the instrument is included in level 2 and if the significant inputs required to fair value an instrument are unobservable, the instrument is included in level 3. The derivative instruments comprise equity derivative hedges which are calculated using a Monte Carlo option pricing model with reference to the closing share price, 250-day historical volatility, the 12-month trailing dividend yield and the risk-free rate; and forward exchange contracts which are calculated using standard market calculation conventions with reference to the relevant closing market spot rates, forward foreign exchange rates and interest rates; both of which are classified as level 2 instruments. All financial instruments accounted for at fair value through profit or loss are considered to be level 2 instruments with the exception of investments held by the New Clicks Foundation Trust which are considered to be level 1 instruments, since the investments are listed instruments with a valuation based on listed prices. There have been no transfers between levels 1, 2 and 3 instruments during the year. The group applies hedge accounting and where derivative instruments are designated as hedging instruments in a cash flow hedge, fair value gains/losses are recognised in other comprehensive income and released either to profit or loss or as a basis adjustment to the hedged item when the forecast transaction takes place.
- 1.5 The derivative financial assets comprise the hedge obligations under the cash-settled share compensation scheme.

1.6 Revenue R'000	31 August 2024	31 August 2023	% change
The group's revenue from contracts with customers is disaggregated as disclosed below:
